

APRIL 2020

Important notice for private drinking water sample submitters

As of Monday, April 27, 2020 some private drinking water samples submitted to the Public Health Ontario (PHO) Laboratory, Hamilton will be sent to the Ministry of the Environment, Conservation and Parks Laboratory Services Branch (MECP LaSB) for analysis.

The regular options for accessing the test results will still be available. Check our Well Water Testing webpage for any updates.

The submission of your sample implies your consent to have your water tested at MECP LaSB. There continues to be no charge for this testing. If you do not wish to have your sample transferred, please contact customerservicecentre@oahpp.ca and they will arrange to have the analysis cancelled. If the sample has already been transferred and the results are available, they will be reported. A list of alternate licensed laboratories can be found on the MECP website.

We apologize for any inconvenience this may cause.
